

# *The Pandemic*

*A supplement to Talking Turning during the Covid-19 pandemic*

Greetings to all members of Koonung Woodturners Guild. In response to some of our members who do not have access to the WhatsApp application for mobile phones that many of our members are keeping in touch with, the committee is considering introducing an interim newsletter to supplement Talking Turning. A month is a long to wait for Talking Turning to come out. We can only encourage members to keep in touch with each other during these testing times.

The following is a selection of articles that could appear in either Talking Turning or "The Pandemic". If there are any tips, handy hints or anecdotes that you would like to contribute please feel free to forward them to the editor. Perhaps you may have some handy set up in your shed that others may find interesting. Since it looks as though we won't be able to do a shed visit for a while why not take a photo and share it with others. We will endeavor to show some of the photos that have appeared on WhatsApp
